

MRS 200 (DUO) Sonic Rig

MRS 200 (DUO): Multi-Purpose Sonic Rig

- Mineral sampling
- Environmental research
- Geotechnical sampling and testing
- Geo-constructional drilling
- Seismic drilling
- Customized solutions

The MRS 200 is a sonic drill rig equipped with a powerful 40k MidRotoSonic drill head, designed to bridge the gap between between the CompactRotoSonic 34K and LargeRotoSonic 50K.

This rig is also available as DUO, which is equipped with both a MidRotoSonic drill head and a four-speed rotation head. To combine sonic sampling and diamond core drilling in the same borehole, easily switch drill heads by shifting the trolleyboard.
